

Hi Edmund,

Below is the testimony from me about Bryan's cycling learning experience.

Learning to ride a bike has always been a chore. Not until coach Edmund came on board. He is a very patient, understanding and confident coach. He has his own technique in getting the newbies on twos very quickly. No training wheels required at all. I must say he's awesome. He doesn't believe that you must fall to learn to cycle.

Whether you are 5 or in your 50s, age is never a barrier.

Within an hour, Bryan had graduated from his cycling lesson with great satisfaction and another milestone accomplished. It's a very fulfilling and unforgettable moment.

By the way, he's riding a Raleigh 26" Mountain bike very confidently now.

Highly recommended for those who are seriously looking for a coach. Make an appointment now and you will know what I mean.

Thank you coach Edmund. Two thumbs up! 👍 👍

Best Regards,

(Bryan's mummy)
